About Neopulse Energy Private Limited:

With solar energy gaining significant momentum every day, we, team Neopulse Energy is here to help you with building the most efficient and cost-effective solar PV plant that delivers optimized performance and meets the specific needs of the project and its stakeholders.

With in-depth knowledge of Solar technologies, system components, and their integration, we bring new energy every day for you to deliver sustainable clean power for a better tomorrow

Job Overview:

We are seeking a proactive and tech-savvy AI Support Specialist Intern student to assist in the automation of internal processes using AI tools and frameworks. The ideal candidate will work closely with various departments to identify automation opportunities, implement AI-driven solutions, and optimize existing workflows for enhanced efficiency.

Key Responsibilities:

- Collaborate with internal teams to analyze current processes and identify areas for AI-driven automation.
- Develop and deploy AI models to streamline repetitive tasks, data processing, and reporting activities.
- Integrate AI solutions with existing tools and systems to improve operational efficiency.
- Monitor and maintain AI applications, ensuring optimal performance and resolving technical issues
- Provide training and support to teams on using AI-powered tools effectively.
- Collect and analyze data to assess the impact of implemented AI solutions and recommend further enhancements.

NOTE: This opportunity can be converted into full time, based on successful apprenticeship completion and performance.

If you are interested in the above opportunity, please feel free to fill in the [Google Form](#) on or before **23rd May, Friday 10:00 AM 2025**.

Feel free to reach out for any clarifications, I will be happy to help you with the same.

Regards,
Bhargav CR
Manager - Industry Relations and Career Services
